1. A satellite moves around the earth in a circular orbit with a constant speed. Is the motion uniform or accelerated?

---

---

---

---

---

2. Give one example of motion in which a body has a constant speed but not constant velocity.

---

---

---

---

---

3. Is it correct to say that the earth moves around the sun with constant velocity ?

---

---

---

---

---

---

4. What remains constant in uniform circular motion?

---

---

---

---

---

---

5. Define retardation.

---

---

---
