Speak Your Mind

Q. “Is a scientific outlook necessary to bring happiness in life?” Conduct a debate by dividing the students/class into two groups.

Ans.

For

It is necessary because if the father had not treated the mother in time, she would have died. Medication helped in controlling the spread of poison into her bloodstream which would not have been possible through rites.

Against

Not necessary. Look at the industrial dump and garbage that pollute rivers. Moreover, sometimes, medicines too can have side-effects, that can make the condition worse for a person.

Project Work

Search the internet and find out (all details) about the poet Nissim Ezekiel and make a presentation before the class.

Name

Date of birth

Year of death

Native place

Adult life
